DEAD MATE

Liam B and Sergio C 2017

Deep in the bowels of an underground laboratory...

However, there was one slight complication...

What?! What is it? Have you ruined my Roguish good looks?

Er, no. Just look down.

GYAARGH!

But Prof, what is it?

Well, to bring you back, I had to use multiple sources, as there wasn't enough of your original body left.

As a result, there are some... impurities in your current form.

It also means that you have some siblings. Come, you should meet them.

Some... can barely be considered to be your brethren

While others are at least closer

I have selected some of the best of them for you to fight against, to make sure that you are truly the one I seek

But I-

It's either that, or die now.

I guess I have no choice

Sleep here. You'll need lots of energy for tomorrow...when you fight for your life?

IT'S A LIFE!

THE NEXT DAY...

OK here's the first match of the day
